

7600

- Modern and elegant design to suit the most design conscious clients.
- Three models available - instant, single or double freshbrew.
- Optional cold drink facility.
- Impressive 600 cup capacity.
- Direct selection buttons ensure a quick and simple drink service.
- Innovative cup elevator enhances drink presentation and reduces spills.
- Large poster area with choice of graphics.
- Reliable and proven technology.
- Choice of two canister sizes - ideal for popular drink selections.

The 7600 is the first machine from the new and exciting 7000 line from Wittenborg, which offers outstanding visual appeal and classic Scandinavian design. Many new and innovative features have been incorporated into the 7600 - continuing and re-enforcing the well known Wittenborg position of premium quality, reliable technology, great design and delicious drinks.

With up to 24 direct selection drinks and 4 pre-selection options available, the 7600 provides a fully automatic service delivering a wide range of beverages to suit each individuals taste. As customers expect choice, the 7600 is available with either instant and freshbrew coffee making technologies - as well as an optional cold drink facility.

Beverages are served simply and efficiently, due to the cleverly designed selection buttons and large open delivery area, allowing drinks to be removed safely. An automatic sensor in this area permits china cups or jugs to be used for guests and meetings.

The 7600 is the operators dream, due to a number of labour saving features that have been incorporated into the design, reducing the time required to clean, fill and maintain the machine.

Offering innovative design, new technology, simple operation and great drinks, the 7600 provides a superior drink service - even in the most demanding locations.
