Carousel - Food Merchandiser

The Carousel offers customers a wide and varied range of products, from plated main meals to sandwiches, snacks and cold drinks. It features a unique 2 way-rotating drum which assists in both menu selection and speed of purchase.

Uniformity of temperature throughout the whole machine, including the 3 shelf storage areas, is achieved by a cold air flow system which automatically disables customer use should the temperature rise above 7°C.

- Highly efficient, environmentally friendly re Fridgeration system keeps products fresher for longer
- Compartment sizes can be altered quickly and without tools allowing products to be stocked according to customer preference
- Vend inhibit mode can be set to reserve selection of items until a set time
- Easy clean compartments ensure high levels of hygiene can be easily maintained
- Fullest zone displayed when machine not in use maintaining superior visual appearance
